Memorandum for : To whom it may concern

Subject : Hand Construction Co., Inc., and Larry Hudson, Project Supervisor

This letter of recommendation to whom it may concern, acknowledges the work performance of Larry Hudson of Hand Construction Co., Inc.. As the USPS site coordinator for most projects at the Atlanta BMC, I have had the opportunity to interact with many contractors, good, bad and indifferent. It has been a rewarding experience for myself, and the Atlanta BMC staff to have a professionally run organization like Hand Construction Co., Inc., have the opportunity to perform work here at the facility. From the first, pre-construction meeting to the final punch-list walk-thru, business conducted in a manner in which, you would like all project work with contractors performed. With the type of project that Hand Construction Co., Inc. had the task of performing, here at the Atlanta BMC and, all the obstacles that you are forced to encounter, the project ran extremely well.

This is a credit to their on-site project supervisor, Larry Hudson. Mr. Hudson was tasked to take over the project midway through construction. His years of expertise and knowledge of construction and the interaction with other contractors and Postal Staff made this one of the most interesting, enjoyable and anticipated projects since I have been here. Mr. Hudson was able to accelerate the project's completion date by, having everyone involved know what the task at hand requires and, what he expected of everyone. Once the ground rules were established, as I mentioned the project ran smoothly. It has been my experience in dealing with other contractors, that following the schedule according to plan, without flexibility or what I like to call a, what if, plan. Our primary goal and responsibility are to move the mail. Mr. Hudson understood that and if the demands of the facility required a change in their plans, plan B was in place.

To whom it may concern, I would highly recommend Hand Construction Co., Inc. for your service needs, based on my interaction with them and, their on-site project supervisor, Larry Hudson. Hand Construction Co., Inc., work performance here at the Atlanta BMC, warrants acknowledgment and if you have the opportunity to utilize their services, you will be satisfied with their performance as I was. Hand Construction Co., Inc., has a good project supervisor in Larry Hudson, who represents himself and the very well. Much success in your project endeavors.

Sincerely,

Theodore R. Artis Jr.
