Shreveport, LA. 71129

Dear Casey:

Just a note to let you know how beautiful the facility at Highland Hospital is, that you recently completed. I have noticed it several times in passing, in fact, I commented today that I thought that your addition looked better than even the original building. The architectural design is better and just the eye appeal from the street is better, so congratulations on a wonderful addition you did for the hospital. I am sure the people there are as proud of it as we are for you.

Sincerely,

James L. Moss, M.D.
